Organization's Mission Statement Hope Clinic for Women provides safe, confidential, supportive medical care that promotes sexual health and well-being.

Organization's Vision Statement

Hope Clinic for Women comes along side women and men to offer them no cost medical care, education, and resources regardless of race, ethnicity, age, gender, religion, disability and economic status.

Organization History & Accomplishments

In 1999 our founder, Amy Putnam, took action to support her friend facing the uncertainty of an unplanned pregnancy. Dr. Michael Forrester, a local physician, offered an office in his practice.

In 2006 HCW was registered a 501c3 charitable organization in

California.

Over the years HCW rented various locations as the organization grew. 2014 the HCW Board of Directors determined that HCW required ownership of a building to proceed with the process of medical conversion with enough space and resources to offer medical center services and pregnancy support.

In October 2018 we purchased and renovated the historical Police Station at 125 E Hawthorne into what we call "Our Home on Hawthorne," which provides ample room for our current programs and room to grow future programs. Adjacent to our center, we own a small building that serves as our Learning Center, where we offer a free GED program and a space for our new fatherhood program. In 2020 we received our license to be a free primary care medical clinic from the State of California Department of Public Health.

Since 2018, there have been 180 babies born to moms in our programs, At 4.881 client visits moms and dads received over 19,261 support services, 434 women received pregnancy tests, and 376 received free ultrasounds. Our Demographic: 90% have an annual income of less than \$15,000, 53% are single, and 54% of our clients are under 24 years old.

Community - Health & Fitness

Program/Services Description - Social Determinants of Health

Healthcare Access & Quality (Access to Health Care, Access to Primary Care, Health Literacy)

Social Determinants of Health - Healthcare Access and Quality

As a local Free Primary Care Medical Clinic licensed by the State of California serving a high risk population of 17-24 year olds in Bonsall, De Luz, Fallbrook and Rainbow, HCW seeks to include no cost STI Testing and Treatment to the quality no-cost healthcare services we already provide with access for it in the evening and on the weekend, times not currently available in our community.

Statement of Need/Problem

The San Diego Union Tribune states that STDs have been on the rise in San Diego. So much so that in 2018 San Diego was described as America's Finest City with the No. 1 chlamydia rate among cities in the American West. COVID19 reduced the availability and utilization of sexual health services. Local government and the private sector must invest in San Diego County's sexual health services. Education and testing services are a vital investment both because they enhance individual well-being and they have far-reaching benefits for societies and for future generations. In the last decade, San Diego and the state have seen significant cuts in STD prevention efforts, all while infections continue to rise at distressing rates. It's not difficult to see how this divestment is preventing us from winning the fight against STDs and HIV.

Adolescents, young adults, and those pregnant are top priority populations for STI prevention. The CDC recommends that all sexually active women younger than 25 should be tested for gonorrhea and chlamydia yearly. Everyone pregnant should be tested for syphilis, HIV, hepatitis B, and hepatitis C starting early in pregnancy. Those at risk for infection should also be tested for chlamydia and gonorrhea starting early in pregnancy. According to HHS.GOV, the current rise of STIs is a serious public health concern that requires immediate attention. If left untreated, STIs can lead to severe health complications, including pelvic inflammatory disease (PID), increased risk of getting HIV, certain cancers, and even infertility. Mother-tochild transmission of STIs can result in stillbirth, neonatal death, low-birth weight and prematurity, sepsis, neonatal conjunctivitis, and congenital deformities according to the Pan American Health Organization.

BMC Public Health shares that sexually transmitted infections (STI) rates continue to rise in the U.S. with disproportionately high rates among those ages 15-24. With current high-risk STI rates for those in Hope Clinic for Women's (HCW) focus demographic of pregnant moms, teens and young men and women 17 – 24 years old, we believe there is a need and a direct public benefit for HCW to add no-cost evening and weekend STI/STD testing and treatment, times best for the patients. Our STI testing

and treatment program would be free, quick, easy, confidential, and available in the evening and on weekends when teens and young adults in Fallbrook, Bonsall, DeLuz, Rainbow, Valley Center and Camp Pendleton would most likely seek these services. These services are not available at these times with any other local STI testing providers. In addition some STI testing locations do not include treatment. Most patients come to HCW because they had no access to healthcare, their healthcare would not cover the testing, or they could not afford the testing even with the help of their insurance. For those who might have insurance through parents, the stigma of going to a family doctor or local public clinic where there is a lack of privacy and greater exposure keeps them from getting tested and treated.

How are other organizations addressing this need in the community?

In our community other than private medical practitioners, Quest Diagnostics and Labcorp provide testing at a cost but no treatment. Community Health Systems offers both testing and treatment but does not offer the clinic at no cost. HCW currently partners with the Community Health System when referring clients for care that is outside of our capabilities, and through opening this clinic we can be a partner with them acting as a safety net ensuring fewer residents go untested and untreated, and we can help prevent the spread of STIs in our community.

Program/Services Description - Program Entry & Follow Up

The STI Testing and Treatment Clinic will be new to HCW. We are currently surveying local high school students and our pregnancy care clients to determine where they feel most comfortable in receiving STI testing and treatment and why? We have developed a marketing strategy to educate the community about the STI clinic. HCW already has a good partnership with Fallbrook High School, the Fallbrook Chamber of Commerce, and would appreciate the support of the Fallbrook Regional Health District who already assists in providing space for some of our programming for moms and dads in our programs. To access the clinic, patients must set up an appointment on the phone with one of our staff members, there will also be some availability for walk-ins. From that point, the medical staff member or volunteer will call the patient to confirm their appointment and give them an introduction explaining what they should expect once they arrive at the clinic. At the office, the patient will be required to fill out some preliminary questions to help our medical staff get a better feel for their situation. Their information is kept completely confidential. Once completed they will be brought back to the exam room for STI testing. Before being tested the medical staff will educate them on the different STIs and their impacts and treatment options. Some results will be available to them directly after the visit, but some might require a waiting period determined by what is being tested for. For positive results, there could be a required follow-up depending on the treatment.

Program/Services Description - Program Activities

HCW STI testing and treatment will benefit residents of Fallbrook, Bonsall, De Luz, and Rainbow. The clinic will have the capability of offering testing results and treatment for the

following STIs: Chlamydia, Gonorrhea, Bacterial Vaginosis, and Trichomoniasis. Testing and treatment prevent the spread of STIs in the community and prevent further harm to the patient if left untreated. Untreated STIs have the potential to lead to pelvic inflammatory disease (PID), increased risk of getting HIV, certain cancers, and even infertility. According to the world Health Organization, "Information, education, and counseling can improve people's ability to recognize the symptoms of STIs and increase the likelihood that they will seek care and encourage a sexual partner to do so." To address health literacy, we will continue offering education through materials provided at our facility as well as the survey that is sent out to high school students about their knowledge of STIs. Educating the at-risk population is essential to a healthy community.

Program Goal

The goal of the STI testing and treatment program at HCW is to provide free access to 300 teens and young adults in Fallbrook, Bonsall, De Luz and Rainbow, for evening and weekend STI testing/treatments and to destignatize the fear surrounding it with education and support to prevent future infections.

Program Objectives & Measurable Outcomes

Our three main program objectives are: 1 – To provide 2 medical staff and 1 admin staff for evening and weekend nocost STI testing and treatment clinic at HCW making it accessible when other clinics in our area are closed and when our demographic is most likely to seek it. 2 - To prevent new STIs through providing no-cost, on-site testing, treatment, and providing health literacy for 300 teens and young adults, 3 - To increase the visibility of sexual health, STIs, and evidence-based screening guidelines at Fallbrook Union High School and and at public and private events, surveying for their awareness of the STI issue. HCW will measure the success of the clinic's interventions and services in various ways. 1-Quantitative data will primarily be found in the number of people who receive testing and the required treatment. STI prevention will be measured by gathering data about the number of clients served. 2 -Qualitative data will be gained through a survey sent out to high-schoolaged students in our community asking about the benefits of location, availability, and accessibly, and by offering optional surveys to those who receive testing and/or treatment at our clinic as part of our regular services to them.

Organization Collaborations

We have an ongoing non financial partnership with Fallbrook High School that provides ten hours of community service for students who complete a 5 week survey of educational materials that cover high risk concerns sexual health, STIs, unintended pregnancy, abortion, emotional health, etc. Parents of students under 18 must have parental permission to participate. We have established connection with the students making it more likely that they would come to us for STI testing before going elsewhere.

FRHD CHC GRANT BUDGET INSTRUCTIONS

This file has a number of pre-formated pages. Those sections for auto calculations and set formats are shaded in grey and should not be altered. Please keep a copy of this document as it will be used as part of the grant reporting process

There are five tabs to this file:

- 1 Instructions
- 2 Program Budget Form
- 3 Funding History
- 4 Budget Narrative
- 5 Budget Reporting Form

1 Instructions:

All Yellow sections are to be filled out by the applicant. Grey sections will auto calculate and should not be edited by the applicant. All pages are formatted to print portrait, on 1 page.

2 Program Budget Form:

- > PROGRAM COST: This section should reflect the true and total costs of the program.
 - APPLYING ORGANIZATION: This is the applicant agency's investment in their program. This is
- > the value of the resources the agency will contribute to the program's cost. These may include funds from fundraising events, private donors, in-kind goods and services, and volunteer efforts.
- > OTHER FUNDERS: These are funds or resources provided from contracts, grants and partnerships that are used to support the program's operations.
- > REQUESTED FROM FRHD: This is the funding request you are putting forward to the District.
- The line item names may not fully align with your budget. Please edit those items to align with your budget. Explain those items on your Budget Narrative Form as necessary.

A INDIRECT EXPENSES:

This section is for expenses that are part of indirect operats of the program, necessary which may not be part of the direct service provision expenses (Adminsitration, facility expenses, general liability ins., etc.). Please refer back to the training materials for clarification of these expenses. The District will not consider funding more than 25% of these expenses

B PERSONNEL EXPENSES - PROGRAM SPECIFIC:

As stated, this section is for staffing expenses that are directly related to the provision of the services/program. Please list each position title separately, unless there are multiple of the same title then use (x3) as an indicator. For example, if funding salaries for four separate Drivers, you would indicate as, Driver (x4) and the expense amount would be the cost of all four Drivers.

C DIRECT PROGRAM EXPENSES:

This section is for supplies, items and or specific expenses related to the provision of the services/program. This may include phone, rent, prining, program related insurance (e.g., vehicle), trainings and cetifications.

FRHD CHC GRANT BUDGET INSTRUCTIONS

This file has a number of pre-formated pages. Those sections for auto calculations and set formats are shaded in grey and should not be altered. Please keep a copy of this document as it will be used as part of the grant reporting process

3 Funding History

List other grant funders that have been approached by your organization for this program in the past year, do not include FRHD. Include Name, Date, Amount Requested, Awarded, Declined or Pending.

4 Budget Narrative

There are headers that align with the Budget Form. These items should be explained (narrative) if they are unsusual or have a specific project impact. Explanations regarding utility expenses are generally understood, but expenses relating to training or for a specialty insurance could be expressed here.

5 Budget Reporting Form

This form will be used for those grantees who are awarded contracts. This form must be submitted
> with the quarterly Impact Report and should demonstrate that funds were allocated according to
the submitted proposal budget.
