### Program Goal & Objectives

The goal of Door through Door program is to provide timely and appropriate interventions for referred clients, to improve their safety and access to quality care, and to reduce the likelihood of hospital readmission.

The objectives are the following:

- 1) Connect with at least 115 older adults who are or have been recently hospitalized, to provide resources and support to improve their safety and well-being.
- 2) Actively provide interventions, referrals, and/or education services for at least 70% of referred clients. (Note that some referred clients refuse help or do not survive the hospital stay.)
- 3) Through our interventions, 90% of those clients whom we actively engage with will not be readmitted

within 30 days due to preventable conditions.

4) Successfully prevent wrongful or unsafe discharge from a healthcare facility in at least 40% of such identified cases.

### **Program Outcomes & Measurables**

In the past quarter, our advocates have assisted 28 clients through the door-to-door program by providing them with 69 individual activities. These interactions have allowed us to identify and prevent 4 unsafe hospital discharges and take appropriate action.
